Outcomes: To uphold the Constitutional mandate, the state has enacted various legislative measures intended to ensure equal rights, to counter social discrimination and various forms of violence and atrocities and to provide support services especially to working women. Although women may be victims of any of the crimes such as 'Murder', 'Robbery', 'Cheating' etc, the crimes, which are directed specifically against women, are characterized as 'Crime against Women'. These are broadly classified under two categories.

Access to justice has been recognized as an essential facet of human development, for ensuring democratic governance, in reducing poverty and for the purpose of dispute resolution and prevention. India's judicial and legal system has much strength: excellent constitutional and legal safeguards for access to justice; well-established institutions; independent judiciary, a vibrant voluntary sector and an independent media. The country has progressive laws in many areas such as the recognition of historical injustices, importance of group rights, affirmative actions for vulnerable sections, including for women and children. The governments' priorities in legal and judicial reform include improving the efficiency of the justice delivery system for marginalized groups, who do not have strong lobbies to ensure that their rights are guaranteed.

Outcomes: Women's safety involves strategies, practices and policies which aim to reduce gender-based violence (or violence against women), including women's fear of crime. Women's safety involves safe spaces. Space is not neutral. Space which causes fear restricts movement and thus the community's use of the space. Lack of movement and comfort is a form of social exclusion. Conversely, space can also create a sensation of safety and comfort, and can serve to discourage violence. Therefore planning and policy around safety should always involve and consider women . Women's safety involves freedom from poverty. This includes safe access to water, the existence and security of communal toilet facilities in informal settlements, slum upgrades, gender-sensitive street and city design, safe car parks, shopping centers and public transportation . Women's safety involves self-worth. In safe homes and communities, women have the right to value themselves, to be empowered, to be respected, to be independent, to have their rights valued, to be loved, to have solidarity with other family and community. Women's safety means a safer, healthier community for everyone. This is a participatory process focused on changing community norms, patterns of social interaction, values, customs and institutions in ways that will significantly improve the quality of life in a community for all of its members . This is a natural by-product of efforts that attempt to address issues such as family dynamics, relationships, poverty, racism and/or ending sexual violence. Building a healthy, safe community is everyone's job.

Women Awareness Camp at RTES College

Published 1/20/22 9:03 PM

Succeed online.

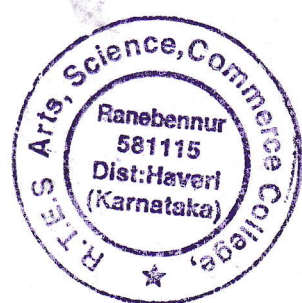

Ranebennur 20: Women are constantly suffering from a similar problem in society. To get out of this, everyone has to be mentally and intellectually ready. That is why today's intellectual development is needed. Former member Mangalagauri Poojar.

He is also a member of the city's RTEES. He spoke at the inauguration of the Awareness Awareness Program on the exploitation of women and children at the college. Modern society is sinking into a technological boom. He said that such awareness campaigns are very essential.

Inaugurating the camp, the CPI Today, our youth are losing their identity as a result of the influx of Western culture. India's culture and heritage is a model for the world. Only when the history is realized will India's development and integrated Indians be able to achieve more.

The program was presided over by the college PharcharyaF, H, Machenahalli.

Women's Police Department R.Kurnal, Nanda Bhajantri, GPLamani, MadhuraN, SC, Mallapur, Uma Madloor, Veena Honnagoudra, RameshNG, Akshayakumar, Sharathgowda, Sharanabasappa, Maltesh Dr.Madhukasar, Dr. Other lecturers, including Dr. Madhukumar R Sivakumar Bennese of Bammana, attended the lecture.

Outcomes:

The vote is precious. It is the most powerful non-violent tool we have in a democratic society, and we must use it." Parivartan, the NSS unit of RTES College organized a 'Banner Making Event' on the occasion of the Youth Voter Festival. The event was organised on 25th January, 2022 wherein 100 volunteers participated and educated people about the importance of voting awareness oath. With the help of this event, we were able to create awareness, showcase our creativity and gain courage to stand with a banner outside our houses. This was surely a successful event which focused on community growth as well as personal growth. While the right to vote is widely recognized as a fundamental human right, this right is not fully exercised by millions of individuals around the world. Voting is a responsibility of all the citizens. The law does not require citizens to vote, but voting is a very important part of any democracy. By voting, citizens are participating in the democratic process. Citizens vote for leaders to represent them and their ideas, and the leaders support the citizens' interests. By not voting, we might actually encourage the wrong candidate to form the government who will in turn be accountable for the country's poor growth.

Outcomes: The Anthropocene has created a new cartography. It moves between the rejection of scientific disciplines, overcoming dualism and a change of coordinates with which to interpret the world. The Anthropocene unites two fields of knowledge: geology and anthropology. The “Axial Age” divides daily practices (the World of life) and the objective view of nature.

The Anthropocene” by Paul J. Crutzen and Eugene Stoermer has two distinct parts; the first establishes “a period of time”, and the second establishes an “epistemic tool”. This paper is intended to illustrate the epistemological dimension of the Anthropocene. Eduard Suess, Antonio Stopani, Pierre Teilhard de Chardin, Vladimir Vernadsky, etc., anticipated the concept of the Anthropocene a century ago. The hypothesis of the earth as a “living organism” is inspired by the Goethean Science or Naturwissenschaft of Johann Wolfgang von Goethe. It reinforces the character of “rupture” that the Anthropocene has. The Gaia Hypothesis, which is built from elements of Earth science systems, sees the pressing need for a global system and to overcome the barriers between disciplines. The Anthropocene allows both ancient quarrels and the roots of philosophical thought to be reviewed. The metamorphosis linked to the Anthropocene represents the interplay between “collapse” and “awakening”.

Outcomes: Soaps made from blends of distilled palm stearin (PS) and palm (PK) kernel fatty acids were evaluated for total fatty matter, sodium chloride content, moisture content, hardness, Hunter whiteness, foamability, iodine value, titer value, and acid value. Soaps are water-soluble sodium or potassium salts of fatty acids. Soaps are made from fats and oils, or their fatty acids, by treating them chemically with a strong alkali. The soap industry in India is at the high growth rate and many new entrants are planning to launch their product in this category. The overall soap industry is worth at 60000 crores.

Name of the Activities	One day Special Lecture on The Role of Indian Political Leaders in the National Movement of India
Organizing Department	IQAC Initiative Department of Political Science
Date	27-06-2022
Time	10: 00 AM – 01:00 PM
Speaker	Prof. M. V. Shidignal Rtd. Associate Professor Dept. of Political Science, RTES Degree College, Ranebennur
Number of Participants	60

Outcomes: The Indian Nationalist Movement is considered as a great movement against colonial power in the world history. The imperialist policies of British led to the growth of Indian Nationalist Movement which was characterized by unity of diversified Indians irrespective of religion, caste, region etc. The Nationalist Movement in India was the outcome of a large number of factors and the most important among them was British Imperialism. It was during the British rule that the whole of India was conquered and brought under one sovereign authority. The domination by any country over the whole of India enabled the people of India to think and act as one nation. Before the coming of the British in India, the people of the South were usually separated from the rest of India except for short intervals. British Imperialism helped the unification of the country. In the name of good government they exploited its economy.

10.A Special Lecture on Research Methodology: Introduction to Nanoscience and Nanotechnology

Name of the Activities	A Special Lecture on Research Methodology: Introduction to Nanoscience and Nanotechnology
Organizing Department	Department of Zoology
Date	11-06-2022
Time	10: 00 AM
Speakers	Dr. Madhukumar R Assistant Professor Department of Physics
Number of Participants	80
Outcomes: Recent advances in nanoscience and nanotechnology intend new and innovative applications in the food industry. Nanotechnology exposed to be an efficient method in many fields, particularly the food industry and the area of functional foods. Though as is the circumstance with the growth of any novel food processing technology, food packaging material, or food ingredient, additional studies are needed to demonstrate the potential benefits of nanotechnologies and engineered nanomaterials designed for use in foods without adverse health effects. Nanoemulsions display numerous advantages over conventional emulsions due to the small droplets size they contain: high optical clarity, excellent physical constancy against gravitational partition and droplet accumulation, and improved bioavailability of encapsulated materials, which make them suitable for food applications. Nano-encapsulation is the most significant favorable technologies having the possibility to ensnare bioactive chemicals. This review highlights the applications of current nanotechnology research in food technology and agriculture, including nanoemulsion, nanocomposites, nanosensors, nano-encapsulation, food packaging, and propose future developments in the developing field of agrifood nanotechnology.

Objective of the Event	Part of the syllabus to provide special impact of subject to students
Outcome of the Event	Students have got ampull of knowledge about nanotechnology

Event Report:

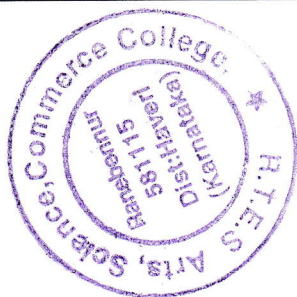

At the beginning of the seminar prof B.R. Katenahalli dept of zoology introduce the guest welcome the principal guest and Recourse person. principal preside over the function. Dr madhukumar give the speech on nanotechnology. Students hear patiently. Students got good knowledge about the subject. Finally there was discussion on topic. Students asked questions & speaker person answered the questions of the students. Totally the seminar was fruitful.

Outcomes: students are able to understand communication is one of the most significant aspects of the life of all living organisms, especially human beings. There is always a constant need for people to generate, organize and pass information from one party to the next. Be it business communication or regular social interactions, transfer of information among different sources ensures harmony and understanding of the expectations, as well the appropriate course of action. Today, all communicating entities employ technology for their communicating needs. Technology comes in handy in facilitating smooth communication among individuals or businesses; as it provides alternatives that lead to effective communication. Through smartphones and computers, people can pass messages and receive feedbacks through calls, messages and emails respectively. Such advanced technologies have had significant influences on communication in its entirety. Having picked the focus of the paper, the brief write up will explore the influences of technology on communication, by examining the methods of communication via technology. The methods include blogs, email, cell phone, online chats and video calls.

Outcomes: Ever since 1987, our country has been celebrating the National Science Day on 28th February to commemorate the discovery of the 'Raman Effect' by one of the renowned Physicist of India- Sir CV Raman. This year, the theme was 'Integrated Approach in Science and Technology for Sustainable Future'

At the age of sixteen, Einstein imagined chasing after a beam of light. He later recalled that the thought experiment had played a memorable role in his development of special relativity. Famous as it is, it has proven difficult to understand just how the thought experiment delivers its results. It fails to generate problems for ether-based electrodynamics.

Subject: Letter of appreciation.

Respected Sir,

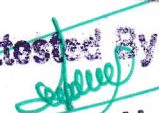

Thank you very much for accepting our invitation as a chief guest for celebrating "**National Science Day-2022**" on 28th February 2022 at R. T. E. Society's Arts Science and Commerce Degree College, Ranebennur, Karnataka. We are grateful for the time and effort you took to share your knowledge and experiences with us. Your expertise in this field, depth of understanding, and ability to present your views in such an interesting way produced one of the most memorable days in our college's history. Thank you for wonderful interaction and making the lecture successful, and we appreciate your continued support.

Sincerely,

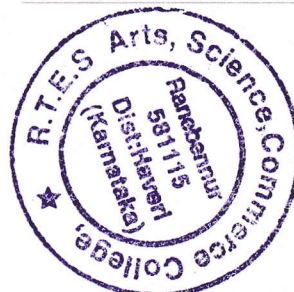

Place: Ranebennur

Diagram illustrating the calculation of the time delay (Δt) for light to travel a distance d from a source to an observer.

Diagram shows a source (S) and an observer (O) separated by a distance d . The light travels a distance d to the observer. The time delay is calculated as:

$$\Delta t = \frac{d}{c}$$

Where c is the speed of light, $c = 3 \times 10^8 \text{ m s}^{-1}$.

For $d = 100 \text{ m}$:

$$\Delta t = \frac{100}{3 \times 10^8} = 0.3 \times 10^{-6} \text{ s}$$

Subject: Invitation as a Resource Person (online) for National Science Day Celebration 2022-reg.

Respected Sir,

Our college is celebrating Science Day on the 28th February 2022 in commemoration of **Sir. C. V. Raman**. On this occasion we would like you to grace the National Science Day-2022 celebration as a Resource Person. It would undoubtedly be a lifetime opportunity for the students to hear and experience an amazing field from an enlightened person like you. In this regard, we would like to request you to accept our invitation. We are looking forward to your valuable response.

Thanking you.

Yours sincerely

Outcomes: The Webinar entitled, “**Emerging challenges and changes student centric Learning and Challenges in sustenance Best practices in Higher education**” shall enable the participant to understand the nuances of advocating the Institutional best practices benchmarking approach for quality enhancement in higher education and Further, to provide ideas of student-centered education. To raise awareness of the advantages and disadvantages of teacher-centered education and student-centered education. The preparation of these documents requires thorough understanding and knowledge about the context of each quality measure. Moreover, the NAAC’s Revised Accreditation Framework (RAF) has brought in substantial changes in the assessment and accreditation process, with the view to make the A&A more objective and generic. The stakeholder of every HEI should be sensitized about the policy, procedure and process of the NAAC’s cycle of accreditation and mandatory requirements are to be strictly complied with by every aspiring institution. So, every HEI should be educated on the seven criteria viz., 1) Curricular Aspects; 2) Catering to the Student Diversity, 3) Research, Innovation and Extension, 4) Infrastructure and Learning Resources, 5) Student Support and Progression, 6) Governance, Leadership and Management and 7) Institutional Distinctiveness along with their key indicators and the respective quantitative metrics. It is apparent that quality of a HEI cannot be built overnight; every institution should prepare a contextual action plan, based on its strengths, weakness, threats and challenges. Moreover, each faculty member should understand his/her accountability and responsibility in progressively upgrading its quality with respect to NAAC’s quality metrics.

Detailed Report:

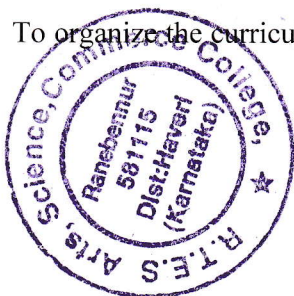

With the generous encouragement and support from the NAAC, Bengaluru, IQAC, R.T.E.Society's Arts Science & Commerce Degree College, Ranebennur, Karnataka One Day Webinar on **"Emerging challenges and changes student centric Learning and Challenges in sustenance Best practices in Higher education"** of NAAC was organized on 26th May, 2022 from 10.30 am to 2.00 pm.

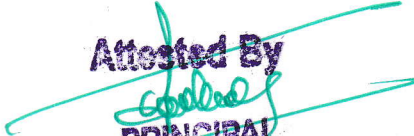

The main objective of the webinar was to Quality has become the defining element of education in the context of new social realities. The higher educational institution (HEI) is consciously accelerated towards quality assurance (QA), augmentation and sustenance in all its dimensions namely academic, research, extension, governance and in its allied as well as in the complementary domains.

The National Assessment and Accreditation Council (NAAC) is advocating the best practices benchmarking approach for quality enhancement in higher education. The benchmarking, the systematic means of measuring and comparing the work processes of an organization with those of others is widely used in industry and the service sector for quality measurement and improvement. The best practices as benchmarks help institutions to find their anchor for self-improvement. It is imperative for the HEIs to get sensitized and formulate strategies for bringing quality culture. Further, 1) to provide ideas of student-centered education. 2) To raise awareness of the advantages and disadvantages of teacher-centered education and student-centered education. NAAC can nurture their research culture by learning from the best practices of HEIs. It is a paramount responsibility of the HEIs to strengthen the hands of NAAC, by conducting webinar. The R. T. E. Society's Arts Science and Commerce Degree College, Ranebennur, Karnataka seeks to conduct a Webinar on NAAC's, with the following main objectives:

- A. To sensitize the higher educational institutions on the pathway of preparedness for NAAC A&A
- B. To train faculty members on NAAC A&A process
- C. To create awareness on the strategies of data collection, collation and management
- D. To demystify the Student Centric Learning resources and to sensitize faculty members faculty are motivated, energized, and capable, they can enhance the learning of the student and support his personal development.
- E. To sensitize faculty members and the institutions to self-validate their credentials on QA and Institutional Best practices.
- F. To train them on the preparation of time-specific action plan for QA.
- G. The college has encouraged students to pursue internships during the vacations and acquire necessary problem solving skills.

To organize the curriculum, instruction, and assessment right from the beginning to make sure that the

learning outcomes are achieved.

About 80 participants comprising faculties from various affiliated colleges across India including Karnataka, Andhra Pradesh, Maharashtra, Odisha, Assam, Tamil Nadu, Punjab, Kerala, West Bengal, Sikkim, Odisha and Gujarat joined hybrid mode (google meet & offline) platform and attended the seminar. The event started with the inaugural speech by Shri. S. V. Sawkar, President of RTES. Principal, RTES, Shri. F. H. Machenahalli, gave the opening remarks on the occasion. Dr. Madhukumar R, IQAC coordinator, RTES extended warm welcome to the participants and resource persons of the seminar. Sri. C. A. Harihar, Associate Professor and HOD, Dept. of Physics. welcome Speaker **Dr. M. Viswanathaiah** Senior Management Professional Bangalore, Karnataka during first session emphasized that the institutional best practices Teacher centred vs student centred learning is so objective, holistic and comprehensive calling for sufficient focus on each and every aspect so as to meet the current requirements and global standards in the field of higher education. He explained the key components of Mode of assessment, skill assessment, Assessment tools, learning skills, teachers' students about the mental process require to adapt and improve upon a modern work environment. He emphasized that Learning skills like critical thinking, creativity, communications from the academic department's wings will certainly helpful in identifying Strengths, Weaknesses, Opportunities and Threats (SWOT analysis). The speakers were **Dr. B.E.Kumar Swamy** BoS & BoE-Chairman, Dept. of Industrial Chemistry Special Officer to VC on Research and Development, School of Chemical Sciences, Jnana Sahyadri, Kuvempu University, Shankaraghatta- 577 451, Shimoga Dist, Karnataka, The programme began with the welcome address by Dr. Madhukumar R, IQAC Coordinator of RTES Degree college and **Dr. B.E.Kumar Swamy** gave well-articulated presentations on the details to be Research, Innovations and Extension, Research and Development is an integral part of the academic activities.

They discussed all topics within this criterion with special emphasis on all the details which would ensure a better grade and reputation for the college. They explained how Awards for Innovation won by Institution/Teachers/Research scholars/Students during the year are important in determining the academic standing of the college. Incubation centres created, start-ups incubated on campus and Research Publications in the Journals notified on UGC website during the Research and Publications and Awards all go a long way in defining the worth of the educational institution. Extension activities and Awards and recognition received for the same from Government and other recognized bodies during the year are also important. The speakers also stressed on the number of Collaborative activities for research, faculty exchange, and student exchange. Linkages with institutions/industries for internship, on-the-job training, project work, sharing of research facilities etc. during the year is also an important marker for the institution. This includes MoUs signed with institutions of national, international importance, and other universities and industries. The program concluded with an interactive session
